An exceptionally strong program is arranged for this year, and all agents of this company will gladly supply inquirers with folders and booklets giving full details.

Excursion tickets from Guthrie cost \$3.55 round trip. They will be good until June 25th. Especial attention will be shown to parties who have camping out luggage to ship.

There are at present five three story brick buildings under course of construction in Muskogee and three more contracted for. Never in the history of the town was there such a building boom as there is at present. During the summer a \$30,000 opera house is to be erected, and plans have been drawn for a large number of brick business houses. Everything in the way of new building is of a substantial nature; a one story structure is a thing of the past. There are now nearing completion a magnificent four story brick with a basement, and a five story brick with a basement. There is not another five story building in the entire Indian territory.

The way in which most people seem to enjoy a home is in planning additions to be made another year.

Colorado Applies Drastic Measures

(Continued from page 1.)

the battle between General Bell's soldiers and union miners occurred, was outside of Teller county and therefore beyond the zone of territory included in the proclamation declaring Teller county to be in a state of insurrection and rebellion, Governor Peabody today said:

"I do not know where the Teller county line is as compared with the location of Dunnville, but I have no objection to what General Bell did and I approve of his every action in breaking up that gang of dynamiters and securing their guns. I do not think the location of the place will cause much unfavorable discussion."

THEY MEAN BUSINESS.

War Will Be Waged to Bitter End Against Unions.

Cripple Creek, Colo., June 10.—A campaign was begun here against all union organizations. Two committees composed of the Citizen's Alliance started out with identical forms of agreements to secure signatures, and with two exceptions all business houses visited, signed through authorized representatives. The agreement reads:

"We, the undersigned merchants of the Cripple Creek district and employers of help, hereby agree not to employ help of any kind that is in any way connected with the trades assembly or the American Federation of Labor or the Western Federation of Miners or kindred organizations."

Every clerk employed in stores on Bennett avenue, the principal street, belongs to some union, but all will be required to surrender their cards according to the agreement made by their employers.

Deputies have been busy making arrests and at 6 o'clock last night there was confined in the bull pen a total of 57 men. Since the wholesale arrests have been in progress the Mine Owners' association offices have been filled with men who are flocking there to take out cards, but none are being issued at present.

The funeral of Alexander McElair, the shift boss of the Findley mine who was killed in the explosion, was held yesterday and was the largest funeral ever held in this city.

Although the streets were muddy, several hundred members of societies of which Mr. McElair was a member, besides 124 citizens, committees composed of mine owners, merchants, miners and bankers, walked to the cemetery.

Detectives in the employ of the Katy and the American Express company, are searching for T. D. Dennis, agent of their companies at Luther, who disappeared from Luther last week. Mr. Dennis is a young man and investigation has shown that his accounts are straight and no reason can be advanced that will explain his disappearance. He left home to attend the carnival given at Oklahoma City and no trace of him has been discovered since.

SISTER'S TRICK

But all Came Out Right.

How a sister played a trick that brought rosy health to a coffee fiend is an interesting tale:

"I was a coffee fiend—a trembling, nervous, physical wreck yet clinging to the poison that stole away my strength because for a fleeting moment it stimulated my weakened powers. I mocked at Postum and would have none of it."

"One day my sister, Mrs. U. S. Showalter, substituted a cup of crisp, hot Postum for my morning cup of coffee but did not tell me what it was. I noticed the richness of it and remarked that the coffee tasted fine but my sister did not tell me I was drinking Postum for fear I might not take any more."

"She kept the secret and kept giving me Postum instead of coffee until I grew stronger, more tireless, got a better color in my shallow cheeks and a clearness to my eyes, then she told me of the healing giving, nerve strengthening life saver she had given me in place of my morning coffee. From that time I became a disciple of Postum and no words can do justice to the good this cereal drink can do. I will not try to tell it for only after having used it can one be convinced of its merits." Name given by Postum Co., Battle Creek, Mich.

Ten days trial shows Postum's power to rebuild what coffee has destroyed. There's a reason. Look in each pkg. for the famous little book, "The Road to Wellville."
